# Hintco Roadshow on 2nd H2Global tender

 Concepción, Chile, 6th Green  
Hydrogen Summit Chile LAC 2025

 23.04.2025

 Centro de Eventos SurActivo

## HINTCO ROADSHOW

### Bridging Hydrogen Supply and Demand

Hintco has launched its second tender and is coming to **Concepción, Chile**, to connect with producers of hydrogen and its derivatives in an open, non-discriminatory workshop format.

The event is accompanying the **tender documents for the 2nd H2Global tender** published February 19<sup>th</sup>, 2025, and will give producers the opportunity to clarify possible questions regarding the auction process as well as eligibility criteria and bid preparation.

The event is held in a **hybrid format** and will also be streamed online. To participate in the tender, an attendance of the workshop is helpful, but **not mandatory**.

### What to expect:

- **Presentation of the H2Global mechanism and upcoming tender design**
- **Explanation of eligibility criteria and participation steps:**
  - Requirements for participation and bid preparation
  - Timelines and process
- **Direct engagement with Hintco experts for Q&A**

## Who should attend?

**Producers of hydrogen** and derivatives (RFNBOs) interested in participating in the upcoming Hintco HPA auctions

Industry representatives involved in the **production-side value chain** of renewable hydrogen and derivatives (RFNBOs)

## Register Now!

To participate in person or hybrid in this event, a **registration is required**, and participation is subject to confirmation.

Only producers of RFNBOs and industry stakeholders involved in the production-side value chain of RFNBOs are admitted to this workshop to keep the format as targeted as possible.

In case of a virtual participation, a personalised link will be provided via email.

**Secure your place at this roadshow event and be part of shaping the hydrogen economy:**
